Keep track of the month's weather on a calendar. At the end of the month, make a bar graph showing how many cloudy days, how many rainy days, and how many sunny days there were.	Toss three dice, make and solve an addition sentence using the three numbers. Do this nine more times.	Trace and cut out 5 circles, 5 triangles, 5 squares and 5 rectangles. Glue them to a sheet of paper to make a picture. (ex. A house or robot)	Write down the time you eat breakfast, lunch and dinner. Use three paper plates to make clocks showing these times.	Toss a coin 10 times. Make a tally chart showing how many times it landed heads up and how many times it landed tails up.	Using an inch ruler, find 5 objects longer than 10 inches and 5 objects shorter than 10 inches. List them on a sheet of paper.
Look at the calendar. Count all the days of summer vacation. Use that number to write 5 math problems.	if each vowel in your first and last name is worth 5 cents, and each consonant 1 cent, how much is your name worth?	Count the red and white stripes on the U.S. flag. Write an addition sentence to show how many stripes in all.	Using shaving cream to clean the kitchen counter! First, use the foam to draw geometric shapes.	Count the number of times you can hop on your right foot and then our left foot. Compare the 2 numbers using $>$, $=$, $<$	Grab a handful of macaroni noodles. Estimate how many pieces you have in your hand. Count to check you guess. Do this a second time.
Skip count to 100 by tens. Skip count to 50 by fives.	Write 5 two-digit numbers. Put them in order from least to greatest.	Write 5 two-digit numbers. Put them in order from greatest to least.	Add the ages of the people in your house together. What is the sum?	Write 6 double facts. Show them using marbles or buttons.	Have someone call out several 2 and 3 digit numbers. Write them down.
Show 5 different ways to make \$1.00 using coins.	Write a fact family for the numbers 7, 2, and 9.	Write a fact family for the numbers 3, 9, and 12.	Write a fact family for the numbers 4, 8, and 12.	Write a fact family for the numbers 9, 5, and 14.	Write a fact family for the numbers 5, 6, and 11.
