Helen Keller

Helen Keller was born in 1880. When she was 19 months, she got very ill. Her illness caused her to lose her sight and hearing. Helen became blind and deaf. Her family began to look for help for her. When Helen was seven years old, a teacher named Annie Sullivan came to live with Helen's family. Annie began to teach Helen how to do sign language. Helen became excited to learn, and even went to college! Annie went with her. Helen worked to make the world better for other people who needed help. She wrote books and gave speeches. Helen Keller was an amazing woman!

World Water Day

Water is one of our most important resources. 8

We use water daily for many purposes. We not 17

only use it to drink, but also to cook with. We 28

use water to keep our bodies clean, and to clean 38

things like dishes. Could you imagine life without 46

water? Sadly, there are many people in the 54

world who do not have access to fresh, clean 63

water. In some areas, water is filled with 71

bacteria that makes it unsafe. People can 78

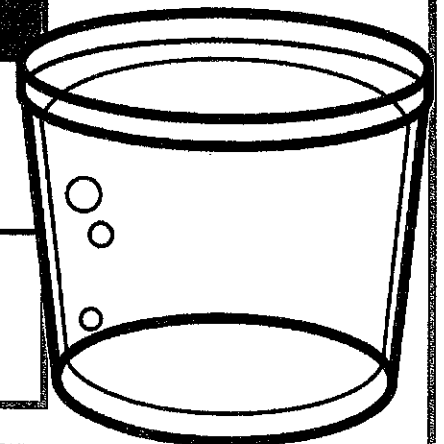

become ill if they use it. World Water Day is on 89

March 22. People collect money and help teach 97

people about the importance of water and how 105

to help people who do not have it. 113
